Subject: need for public notice for VB I-70 OU1 Notice of Intent to Partially Delete
Attachments: Cal Gulch - OU 1 and 3 deletion final public notice.docx; VBI70.NOIPD.cs.12.4.18.docx

Hi Jennifer,

In Jesse Aviles' absence, I am helping to get the Notice of Intent to Partially Delete (NOIPD) OU1 of the VB I-70 site published in the Federal Register to open the public comment period. I have attached a copy of the NOIPD which is being routed for RA signature. It is anticipated that the RA will sign it next week.

After RA signature, the signed document will be sent to the Federal Register for publication. It usually takes about a week and a day for the Federal Register to publish a document. Timeline was this would put the anticipated publication date sometime between December 19 and December 26 depending greatly upon when the RA signs the document. The Federal Register usually sends me an email with the exact publication date a couple of days before publication.

To open the public comment and coinciding with publication in the Federal Register, a notice is placed in the paper. I have attached an example of a public notice that was used for a deletion at California Gulch through Chris Wardell. In the VB I70 public notice, information about the repository and how to comment should match found in the NOIPD.

Jennifer, can you complete a draft notice and send it to Sisay? Jesse put the publication in the NOIPD as the Denver Post.

Sisay, can you get an estimate, prepare a PR and process the publication of the notice?

Jennifer, Bill Cooper is familiar with how we have placed information of the Site's website about the comment period and how to comment. He can tell you what has been done in the past. You can decide how you would like the information present. Just work with Bill.

I will keep you updated when the RA signs or expected to sign. Currently the ARA is reviewing the NOIPD. Next stop is the RA.

If you have any questions, I will be in the office the rest of today and back in all next week.
